* (2) The emission reduction rate is calculated based on the production record of FY2019. The CFP is calculated from upstream of the product to our manufacturing. CFP values for Scope 1 and Scope2 were calculated based on the actual energy consumption in FY2019 while CFP value for Scope 3 Category 1, 3, 4, 5 was calculated with reference to the value of IDEA (MILCA) v2.3. and information of suppliers.

* The above CFP is calculated based on the information currently obtained and is not a guaranteed value. Also, the calculation figures may have an effect by improvements or changes in processes, technologies, raw materials, and regulations.

* Disclosure of this calculation figures to your company is premised on your confidentiality obligation. It is prohibited to disclose to any third party without our consent / agreement.
