To Whom It May Concern:

Asahi Kasei Corporation

Price Revision of Synthetic Rubber

Asahi Kasei Corporation announces that it has decided to implement the following price revision for synthetic rubber.

1. Products: BR, SBR (Asadene™, Tufdene™, Asaprene™)
2. Price revision: ¥45/kg or more
3. Date of revision: From factory shipment on June 1, 2024

4. Reasons for this revision:

The costs of utilities and auxiliary materials remain high while the costs for maintenance, personnel, and logistics, etc. have risen due to inflation worldwide.

Under these circumstances, the increased costs of the relevant products continue to be above the range that can be curtailed by internal efforts, and we have come to the decision that we have no choice but to implement this price revision.
